JUNE 22, 2006

- Earlier this month, the little bombshell went into effect: No more hand-written prescriptions — unless it's the sort of writing you learned in first grade.

- http://seattletimes.com/html/localnews/2003077424_handwriting22m.html

Institute for Safe Medication Practices

A Nonprofit Organization Educating the Healthcare Community and Consumers About Safe Medication Practices

- Medication errors became front page news with the November 1999 release of a compelling report from the Institute of Medicine (IOM). The public may have been surprised to learn that errors involving prescription medications kill up to 7,000 Americans a year, according to the IOM, and that the financial costs of drug-related morbidity and mortality may run nearly \$77 billion a year.

ADMITTING ORDERS:

The screenshot shows the 'Orders Writer Pro 5' software interface. The patient information at the top includes: Name: Dela Cruz, Juan; Age in Years: 5; Date: 06/04/2012; Address: Quenson Rd, Davao City; Sex: Male; Time: 07:31 am. The interface displays a list of orders on the left and a corresponding list of codes on the right. The orders are as follows:

Order	Code
1 Please admit under my service	11 refer for any unusualities
2 May have DAT	12 please inform me once admitted
3 Monitor BP q 2 hours	13
4 Laboratory: cbc platelet, urinalysis, fecalysis	14
5 Medicines	15
6 Cefuroxime 300mg q 8hours IVTT (ANST)	16
7 Nebulize with Salbutamol 1/2 neb + 1 cc NSS q 15 minutes x 3 doses then q 4 hrs thereafter	17
8 Phenylpropanolamine drops 1ml TID	18
9 Hydrocortisone 400mg now then 200mg q 6 hrs IVTT	19
10 Monitor I & O q shift	20

At the bottom of the interface, there are buttons for 'Ok', 'Cancel', 'Delete', and 'Add New Order Template'. A red banner at the bottom right says 'FOR INFO: 71-30 Click Here'.

EHEALTH SUMMIT WINNER

OUR INTELLECTUAL PROPERTY CERTIFICATES

My challenge to the Medical Societies, Schools and even DOST, DOH or the Gov. leaders:

Make Computerization of the prescriptions and admitting orders a project by Convincing Doctors to :

1. Place a Desktop in the clinic
2. Place a Printer in the clinic
3. Use a free software (not only mine)
4. and make the Philippines a worldwide example.
